Re: Draft Memorandum

I oppose the Draft Memorandum being proposed by the FDA. In particular, I object to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

I think individual doctor-patient-pharmacist teams should work together to meet individual patient needs. Sometimes that requires working across state lines. I see no need to change that possibility.

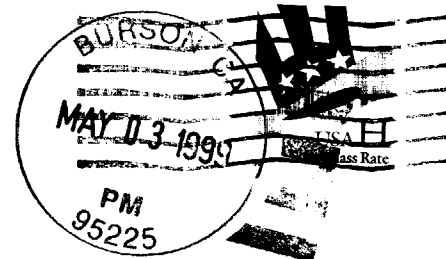

Thankyou for your consideration.
